KEY FEATURES

10.1" Touchscreen
Confidence monitoring, switching, recording, and streaming

Video inputs
Connect your camera or video source with HDMI inputs

1080p HD recordings
Hardware-accelerated box provides flawless H.264 encoding for maximum performance.

Local video output
Send your content to a larger confidence monitor through the local HDMI video output. Configure to share any input source or switched program output

Optional Hard disk inside
Upgrade local storage to 1T hard disk flexibly

Stream to views everywhere
Simultaneously live stream to YouTube, Facebook or web browsers locally over rtsp, rtmp streaming protocol.

Audio support
Use the 3.5mm inputs, or line-level inputs. Built-in attenuation and gain adjustment mean you get perfect sound fidelity

Switch video sources live
Incredibly easy to use, new touchscreen makes switching between your connected sources or layouts a breeze. Or use the web to do switching

Removable storage
USB for speedy transfer of files

Integrate into the 3rd central control system flexibly
